The Population By-census conducted in July to August 2006 provides a benchmark for revising the population figures compiled since the 2001 Population Census. Population figures from 2001 to 2005 in this table have been revised accordingly. Population figures before 1996 were compiled using the "extended de facto" approach. Population figures since 1996 are compiled using the "resident population" approach. Notwithstanding the change, the revised figures are broadly comparable with those of earlier years.

在二零零六年七月至八月期間進行的中期人口統計提供一個基準，用作修訂自二零零一年人口普查以來編製的人口數字。本表所載由二零零一年至二零零五年的人口數字已作出相應修訂。自一九九六年起的人口數字是以「居住人口」方法取代以「廣義時點」方法編製。雖然這些數字是根據新方法編製，但它們仍可與較早年度的數字作概括性比較。
