HA Commences Influenza Vaccination Programme

Public hospitals and out-patient clinics of the Hospital Authority (HA) will start providing seasonal influenza vaccination in phases to eligible persons from coming Thursday (October 6) to dovetail with the Government Vaccination Programme 2022/23.

The seasonal influenza vaccination programme this year will be carried out in three phases. In the first phase, the HA will provide influenza vaccination to eligible patients of public hospitals and out-patient clinics (see Annex I). Eligible patients may visit the public hospitals and out-patient clinics under the HA for seasonal influenza vaccination.

Eligible patients with regular follow-up at specialist out-patient clinics (SOPCs) and general out-patient clinics (GOPCs) are advised to receive vaccination at the time of their scheduled follow-up appointments after the commencement of the programme. Patients whose follow-up appointment dates fall outside the vaccination period can visit or contact the respective clinics for necessary arrangements.

The second phase will commence on October 24 to cover the vaccination of community elderly people aged 65 or above at GOPCs (see Annex II). Poultry workers, pig farmers and people who are involved in poultry culling operations or the pig-slaughtering industry, as referred by relevant government departments, can also receive seasonal influenza vaccination in selected GOPCs under the third phase of the programme starting from October 31.

According to the suggestions made by the Centre for Health Protection, COVID-19 vaccines can be administered at the same time with other vaccines, including seasonal influenza vaccines. GOPCs will provide both COVID-19 and influenza vaccination for eligible groups while medical staff will offer advice based on their vaccination records.

The Chief Infection Control Officer of the HA, Dr Raymond Lai, appealed to members of the public to receive early vaccination to enhance immunity against influenza. He said, "The local seasonal influenza activity has been staying at low levels since February 2020 and hence the population immune response level against influenza is low. We are concerned that the risk of influenza transmission may increase this winter, leading to potential co-circulation of influenza and COVID-19, with additional burdens on vulnerable populations and health systems. Foreign studies have shown that co-infection of

COVID-19 and influenza increases morbidity and mortality. Members of the public are suggested to be vaccinated against influenza at their earliest convenience. Those who have not yet completed COVID-19 vaccination should also be vaccinated as early as possible."

The seasonal vaccines and COVID-19 vaccines are safe and reliable. Protection through seasonal influenza vaccination will develop in about two to four weeks after inoculation and last for at least six months. It is usually well tolerated apart from occasional soreness or swelling at the injection site. Some people may have fever, muscle and joint pain, and tiredness after vaccination. The signs will usually subside in one or two days. Anyone with influenza symptoms, fever or severe illness should defer vaccination until they have recovered.

Members of the public can enquire about the details of this year's seasonal influenza vaccination programme at the respective SOPCs or GOPCs they are attending, or make enquiries on the HA hotline 2300 6555 during office hours or visit the following website: www.ha.org.hk/goto/gvp202223/en/.

2022/2023

季節性流感防疫注射計劃

Seasonal Influenza Vaccination Programme

HA Website
醫管局網頁

由 **2022年10月6日起**，醫院管理局 (醫管局) 會分階段為以下合資格人士於轄下醫院、專科或普通科門診* (不包括夜間、星期日及公眾假期門診) 提供季節性流感防疫注射。有關人士請於接種疫苗時出示疫苗注射記錄咭、有關部門發出的證明文件及身份證明文件。

The Hospital Authority (HA) will provide seasonal influenza vaccination to the following eligible groups of people at hospitals, specialist or general out-patient clinics* (excluding Evening, Sundays' or Public Holidays' clinics) under the HA by phases starting from **6 October 2022**. Eligible persons must present Government Vaccination Record Card, valid documents issued by relevant departments and identity document when receiving the vaccination.

在知情同意下，**新冠疫苗可與其他疫苗(包括減活疫苗)同時接種**，或在接種其他疫苗之前或之後的任何時間接種。

COVID-19 vaccines can be co-administered with/or at any time before or after, any other vaccines including live attenuated vaccines under informed consent.

有高風險情況或需要長期服用亞士匹林的兒科門診病人

Paediatric outpatients with high risk conditions or on long term aspirin therapy

65歲或以上，在專科或普通科門診求診的長者

(1957年或以前出生人士：於2022年10月6日開始。1958年或以前出生人士：於2023年1月1日開始)

Non-institutionalised elders aged 65 years or above followed up in public clinics

(Persons born in 1957 or before: starting from 6 October 2022. Persons born in 1958 or before: starting from 1 January 2023)

在醫管局轄下門診求診的智障人士

Persons with intellectual disability followed up in public clinics

在醫管局轄下門診求診的領取傷殘津貼人士

Persons receiving Disability Allowance followed up in public clinics

下列領取綜援或持有效醫療費用減免證明書人士：

- 在醫管局轄下診所接受產前檢查之孕婦
- 有高風險情況人士

• 50歲或以上人士

(1972年或以前出生人士：於2022年10月6日開始。1973年或以前出生人士：2023年1月1日開始)

• 12歲至49歲，正領取標準金額類別為「殘疾程度達100%」

或「需要經常護理」的人士 (在接種當日須符合年齡)

Comprehensive Social Security Assistance (CSSA) recipients or holders of Valid Certificate for Waiver of Medical Charges under the following categories:

- Pregnant women with antenatal appointments in public clinics
- Persons with high risk conditions
- Persons aged 50 years or above

(Persons born in 1972 or before: starting from 6 October 2022. Persons born in 1973 or before: starting from 1 January 2023)

- Persons aged between 12 and 49 years receiving standard rate of "100% disabled" or "requiring constant attendance" (Need to be within the age group on the vaccination day)
