## 門診服務及藥物收費調整 Out-patient Service and Medication Fee Adjustment

一直以來，政府對醫院管理局(醫管局)服務提供高度資助。為了確保公營醫療系統的可持續性，由2026年1月1日開始，醫管局透過調整服務收費，改變市民求診模式，減少浪費濫用，確保有限醫療資源可精準投放到有需要的病人身上。

The Government has been highly subsidising the services provided by the Hospital Authority (HA) all along. To ensure the sustainability of the public healthcare system, starting from 1 January 2026, the HA will adjust the fees and charges of public healthcare services. The adjustment helps to modify public behaviour regarding services seeking, and reduce wastage and misuse, so that limited medical resources can be precisely utilised for those in need.
